September 11, 2000

FCC ID: O78SCU32

Dear Sir or Madam:

JK Communications Limited is submitted this application for an equipment authorization based on the RELM Communications, Inc. ARUMPU320B grant. JK Communications Limited is the current and only manufacturer of this equipment. RELM is and has always been a reseller or distributor of this equipment. The only difference between the equipment being shipped to RELM and the JK Communications Limited labeled equipment would be the FCC ID label and the plain black front i.e. lack of RELM logo. JK Communications may however screen the name or logo of another distributor on the front similar to what it has done on the RELM unit. **ALL** circuitry, board layouts, chassis, etc are identical between the RELM and JK Communications Limited units. All units are assembled in the JK Communications Limited facilities in PRC (China).

The label for the JK Communications Limited equipment is shown below and would be located in the same position on the equipment as the RELM labeled units and is shown in another document.

(Possible Distributor Name)
Model: SCU32 UHF Transceiver
<b>FCC ID: O78SCU32</b>
Canada:

## **Federal Communications Commission**

### **TO WHOM IT MAY CONCERN**

Please be advised that JK Communications Limited is the manufacturer of FCC granted transceivers ARUMPV320, ARUMPU320A and ARUMPU320B in our factory in PRC, China. These products are being manufactured for RELM Communications Inc at the present time.

At this time we are requesting a new type approval under the JK Communications designator. The same transceivers mentioned previously will be marketed in the United States under the new FCC identification number.

If you have any questions please feel free to contact Walter "Bud" Simciak, who has power of attorney on any FCC issues, or myself at your convenience.

Sincerely Yours,

*For and on behalf of*  
**JK COMMUNICATIONS LIMITED**
