RE: Global Sun Technology

FCC ID: O7J-GL245401-0T

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The test procedure for measuring power mentions a peak power meter in the procedure, but the diagram shows the substitution method. Please correct.
- 2) The SAR report provided is actually a copy of the EMC report with only 10 pages added to the back for a part of the SAR appendix. A SAR report has not been provided. Please provide.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
