RE: Global Sun Technology Inc.

FCC ID: O7J-WLUD2454-13I

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please indicate how country settings are defined. In other words, how are channel settings determined for Europe, Japan or United States? The manual on page 12 appears to suggest that any individual can select their country of choice via user software. This is, very simply, not permitted under any conditions. Please refer to Rule 15.15(b):

“An intentional or unintentional radiator must be constructed such that the adjustments of any control that is readily accessible by or intended to be accessible to the user will not cause operation of the device in violation of the regulations.”

William H. Graff  
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
