Inventek Systems
ISM14585

LABEL EXHIBIT

The Inventek ISM14585 Module is too small to bear the FCC ID or IC Number; thus, per FCC Part 2.925 Paragraph (f), the FCC ID will be placed in the manual and on the Module Packaging.

By special permission from ISED, as indicated in the attached email, the IC Number and Model information will be placed in the manual.

The packaging labeling is shown on the following page.

ISM14585-L35-P8 MODULE - FCC & IC TRAY LABEL

ISM14585-L35-P8-EVB EVALUATION BOARD - FCC & IC LABEL

Subject: RE: Certification Label for Inventek ISM14585, IC: 10147A-14585 (pending submittal)

Hi Sandi,

The label exemption request is approved. You can put ISED number and HVIN in the user manual.

Regards,

Dear Certification Bureau,

We are writing on behalf of our client, Inventek Systems (see attached Agency Agreement) to ask special permission for them to apply their labeling requirements, including IC Number and Model Number in their User Manual only. We will be submitting an application for Certification of this product through Timco Engineering. The product is a very tiny wi-fi module. Please see the attached photo with the module installed on a test board. The module is circled and, as you can see by the ruler, it is less than 1 cm square.

Best Regards,

Sandi McEnery on behalf of Inventek Systems.
