RE: Pelican Accessories

FCC ID: O7X-G3-1

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The parts list provided does not reference a different manufacturer. Please update the BOM to reference the OEM manufacturer. FYI. The BOM is uploaded to the FCC site, but is listed as confidential. Therefore only the FCC is capable of viewing the file once it has been uploaded.
- 2) Since this device contains a RX and digital device, the users manual should also include the information specified by 15.105.
- 3) Please confirm that digital device and RX portion of this product have been approved under a DoC authorization as shown on the labeling information.
- 4) The Game Cube host transceiver does not appear to be referenced on the 731 form. Has this portion of the system been granted? Please note that the FCC expects both devices as part of a system to be submitted within 5 days of each other.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
