Claire, I am pretty sure I will not be able to review all of the responses until tomorrow morning knowing what my schedule looks like this afternoon and evening.

Sorry,

Chris

Michael, you are listed as the technical contact for the above referenced TCB application. The following items need to be addressed before the review can be continued:

1. Please provide the probe and dipole calibration certificates and reports for the probe(s) and dipoles used during SAR testing.

<answer>The calibration certificates are shown in SAR report Appendix.
The file is saved in TCBUpload\AN07T6477, due to big size.

2. The SAR test report contains the tabulated data for the HSDPA operation but did not contain the SAR plots for these tests. Please update the SAR test report to include all plots.

<answer>The SAR plots are shown in SAR report Appendix. The file is saved in TCBUpload

\AN07T6477, due to big size.

3. Additionally please indicate compliance with the FCC's 3G policy for HSDPA operation, especially in the selection of the modes of operation selected for SAR and RF testing. The 3G policy is currently only listed as a reference, and only in the RF report.
<answer>The mode selection rule is shown in SAR report Appendix. The file is saved in TCBUpload\AN07T6477, due to big size.

4. Please confirm if the voice transmission is capable in the HSDPA mode of operation.
<answer>no voice is supported in HSDPA mode.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
