731 Confirmation Number: EA101742

FCC: The application has an emissions designator with 280 kHz BW. However, there is no data or plots to support this. Please upload a spectrum plot showing the BW.

Handspring: A bandwidth measurement of a Manhattan (Treo k180) was made in the Engineering lab. A call was established approximately in the middle of the 1.9GHz PCS band. The 20 dB bandwidth was measured at 279 kHz as shown in the plot below.
