Subject: Re: request for certification FCC ID: O8Z69112201

Hi Derick,

This application was a good one! Thank you for your business. Only a couple of issues to address.

1. The unit is powered by 8-12V alternator supplied power. I need data to support

a claim of conformance to the requirements of 15.31 (e) which requires that the fundamental be measured under conditions of 85% and 115% of rated power. Or a

statement that a fully charged battery was used for testing.
RESPONSE: A FULLY CHARGED BATTERY WAS USED FOR TESTING.

2. I need an agency letter from DeHaart authorizing you to sign the 731 form on their behalf.

RESPONSE: WE INDEED FORGOT TO UPLOAD THIS LETTER YESTERDAY.

PLEASE FIND IT

ATTACHED.

(See attached file: nmi authorization letter de haardt.pdf)

Sincerely,

Jon Curtis.
