**Declaration of Product GUI  
for  
HP 425 Wireless 11n (AM) AP  
(FCC ID : O9C-BJNGAFB0002)**

We, the undersigned manufacturer, confirm hereby that the above mentioned product is complied with the requirement of software configuration control policies according to FCC publication KDB # 594280.

The GUI set for general users in this product is not providing country selection and channel selection in all portions of channels. The initiation of the AP is random selection using uniform distribution as start-up and it is complied with the FCC DFS requirement for DFS performance/

There is no access to the GUI / software provided to end user/ system , the initiative program code is installed in the Flash mounted on board. Any action by end user intends to modify the software may cause damage to the operation system software and cease the device to be with unrecoverable damage.

A handwritten signature in black ink, appearing to read 'James Taylor', written over a horizontal line. Below the line, the word '(Signature)' is printed in a small, black, sans-serif font.

James Taylor  
Manager, Hardware Support Engineering
