# INSTALLING YOUR WIRELESS LAN PC CARD AND WIRELESS LAN MANAGER

## Installation CD

The *Installation CD* contains:

- Setup programs and drivers for Windows XP, 2000, Millennium Edition (Windows Me), 98 Second Edition (SE), and CE.
- 3Com Wireless LAN Manager
- README.TXT file with updated information about your Wireless LAN PC Card
- This *Wireless LAN PC Card User Guide*
- Adobe Acrobat Reader

## Windows XP, 2000, Me, and 98 SE

If you are accessing this guide as part of your LAN PC Card installation, skip to step 3 below.

- 1 With the computer on and Windows running, insert the *Installation CD* into the CD-ROM drive. The auto-start feature starts the installation. If nothing happens within five seconds, click *Start>Run* and type **d:\setup.exe** (where d: is your CD-ROM drive).
- 2 From the 3Com Wireless Installer main menu, select *Step 1: Read to Install Hardware*.
- 3 Insert the PC Card into the slot (see the illustrations in "Inserting Your Wireless LAN PC Card").
- 4 Respond to the prompts as they appear.  
If you are prompted for the drivers, enter *d:\*, where d: is the location of the CD-ROM drive where the *Installation CD* is inserted.
- 5 During the installation process, you may receive prompts for the Windows installation CD. Insert the CD for your Windows operating system and indicate the correct path.  
Your computer will go through a brief installation process during which it will display several windows indicating what is currently installing.
- 6 Restart the computer whenever you are prompted.

## EXHIBIT 8: User Manual

### Inserting Your Wireless LAN PC Card

If you are using a 3CRSHPW696 or 3CRWE62092B Wireless LAN PC Card, insert it like this:

**3CRSHPW696**

**3CRWE62092B**

**Antennas** The antenna on the 3CRSHPW696 Wireless LAN PC Card is fixed, so you cannot extend or retract it.

Extend or retract the antenna on the 3CRWE62092B Wireless LAN PC Card like a ball-point pen—press it to extend and use it, press it again to retract or disable it.

**NOTE:** The antenna on the 3CRWE62092B Wireless LAN PC Card must be extended in order for you to connect to your wireless network.

### Confirming Device Installation

- 1 With your PC Card installed in the computer, double-click the *My Computer* icon. If you are running Windows XP, click *Start > Control Panel* and go to step 3.
- 2 Double-click the *Control Panel* icon.
- 3 Double-click the *System* icon. The System Properties window appears, detailing your system setup.
- 4 Click the *Device Manager* tab. A list of devices appears, arranged by type.

## EXHIBIT 8: User Manual

If you are using Windows XP or 2000, click the *Hardware* tab and click *Device Manager*.

- 5 Double-click *Network Adapters*. One entry appears: 3Com Wireless LAN PC Card.
- 6 Double-click the entry to display a description of the current status.  
The device status should indicate "This device is working properly."
- 7 Close the windows you have opened until you return to the desktop.

### Installing 3Com Wireless LAN Manager

**NOTE:** *Wireless LAN Manager defaults to automatically connect to any wireless network and no security. This default allows a basic connection to an access point. After installation, consult with your network administrator and refer to 3Com's Wireless LAN Manager's online help to change the service set identifier (SSID) and security settings.*

- 1 If you restarted your machine after installing the Wireless LAN PC Card and the install program did not start automatically, click *Start>Run* and type **d:\setup.exe** (where d: is your CD-ROM drive).
- 2 From the *Installation CD*, select *Step 2: Install Software* and follow the prompts, removing the *Installation CD* and restarting your computer whenever you are prompted.

If the 3Com icon was not placed in the system tray when you installed the Wireless LAN PC Card, start the 3Com Launcher by selecting *Start > Programs > 3Com Mobile > 3Com Launcher*.

### Using Wireless LAN Manager

Refer to the 3Com Wireless LAN Manager help for detailed information about how to use Wireless LAN Manager.

# EXHIBIT 8: User Manual

## 2

## TROUBLESHOOTING

### Diagnosing Problems

If you have difficulty using the Wireless LAN Adapter, try the solutions in the following table. If you continue to experience difficulty, see “Uninstalling the PC Card” or “Uninstalling Wireless LAN Manager.”

Problem	Solutions
Wireless LAN Adapter LED is off.	Make sure the PC Card is properly inserted in the slot.  Check the Wireless LAN Adapter icon in the Windows control panel and make sure the PC Card type can be recognized.
Wireless LAN Adapter installs as an unknown device.	The Windows Add Hardware Wizard was unable to locate the Wireless LAN Adapter drivers. You may have had no CD or the wrong CD inserted in the drive, or the 3Com CD may not have been ready when the wizard looked for the drivers.  Remove the unknown device and repeat the installation procedure. Make sure you insert the 3Com CD when the installation calls for it and that you wait for it to come up to speed in the drive.
Installation program does not finish. The driver fails to load.	A resource conflict may exist. Use the Device Manager to resolve resource conflicts. Select <i>System</i> from the Control Panel, and then click the Device Manager tab.
Network association is intermittent.	If you are using a 3CRWE62092B PC Card, make sure the XJACK antenna attached to the end of the card is extended. Try reorienting the antenna. For best use of the antenna: <ul style="list-style-type: none"><li>» Keep the area around the antenna clear from materials that could block radio transmission, such as metal objects, electronic devices, and cordless telephones.</li><li>» If the signal is weak, change the direction of the antenna slightly.</li><li>» If necessary, move your computer a few inches to find a better signal.</li></ul>
Computer operating system does not recognize the card.	If you are using a PC Card, make sure the card is properly inserted in the slot.  If you are using a PC Card, make sure PCMCIA support is installed.  Check whether a card is already in use.  Windows XP, 2000, Me, and 98 SE: Check whether the computer has a Plug-and-Play BIOS.
No network association exists when the computer becomes active again after being in sleep mode or after the Wireless LAN Adapter is removed and reinserted.	Log out and log in again, or restart the computer to restore the connections.

## EXHIBIT 8: User Manual

### Wireless LAN Adapter LED Indicators

Condition	Description
Off	The computer does not recognize the Wireless LAN Adapter.
Flashing on and off	The Wireless LAN Adapter has power.
Flickering	Data transfer is taking place.

### Uninstalling the PC Card

Previous installations or interrupted installation attempts sometimes leave problems that affect card operation. Possible problems include:

- Wireless LAN Adapter fails to function.
- Operating system does not detect the Wireless LAN Adapter.
- System issues a warning tone at start-up.

If the installation is unsuccessful, your best course may be to completely uninstall the card and repeat the installation procedure.

**CAUTION:** *Exit any networking applications and remove the Wireless LAN Adapter before uninstalling the card.*

- 1 Make sure you have exited any networking applications.
- 2 Use the standard operating system procedure to remove the card driver.  
The procedure for Windows XP, 2000, Windows Me, and Windows 98 SE, is shown below.
  - a If you are using Windows 2000, Me, or 98 SE, click *Start > Settings > Control Panel*.  
If you are using Windows XP, click *Start > Control Panel*.
  - b Double-click the *System* icon.  
If you are using Windows XP or 2000, click the *Hardware* tab.  
The System Properties window appears, detailing your system setup.
  - c Click *Device Manager*.  
A list of devices appears, arranged by type.
  - d Double-click *Network Adapters*.  
One entry appears: 3Com Wireless LAN adapter.
  - e From the Action menu, select *Remove*.  
If you are using Windows XP or 2000, select *Uninstall...*
  - f Click *OK*.
  - g Close the open windows until you return to the desktop.
- 3 Retract the antenna if you are using the 3CRWE62092B adapter.
- 4 Remove the adapter.
- 5 Restart the computer.

**CAUTION:** *To avoid damaging the card, do not pull on the antenna. Refer to your computer's documentation for PC Card removal instructions.*

## EXHIBIT 8: User Manual

### Uninstalling Wireless LAN Manager

Normally, you would not uninstall the Wireless LAN Manager software; however, in case a problem arises, you may want to uninstall and reinstall it.

You can uninstall Wireless LAN Manager any time following the installation. The uninstall removes desktop icons, registry entry files, and files used by the adapter.

- 1 If you are using Windows 2000, Me, or 98 SE, click *Start > Settings > Control Panel*.
- If you are using Windows XP, click *Start > Control Panel*.
- 2 Click *Add/Remove Programs*.
- 3 Select *3Com Wireless LAN Manager*.
- 4 Click *Change/Remove*.
- 5 Click *Remove*.
- 6 When the uninstall is complete, remove the adapter and restart your computer.

### Updating the Wireless LAN Adapter Driver

To update your Wireless LAN Adapter driver software, find your operating system below, then follow the procedure.

#### Windows XP and 2000

- 1 Insert your Wireless LAN Adapter into the PC card slot
- 2 In Windows 2000, select *Start > Settings > Control Panel*, then double-click the *System* icon.  
In Windows XP, from your desktop or start menu, right-click *My Computer* and select *Properties*.
- 3 Select the *Hardware* tab and click *Device Manager*.
- 4 If necessary, click the plus sign (+) to expand the *Network Adapters* tree.
- 5 In Windows 2000, double-click *3Com Wireless LAN Adapter*, select the *Driver* tab, and click *Update Driver*.  
In Windows XP, right-click *3Com Wireless LAN Adapter* and select *Update Driver*.
- 6 Insert the Installation CD. The Hardware Update Wizard window appears.

## EXHIBIT 8: User Manual

- 7 In Windows 2000, click *Display list of known drivers so that I can choose a specific driver* and click *Next*.  
In Windows XP, select *Install from a list or specific location (Advanced)* and click *Next*.
- 8 In Windows XP, select *Don't search. I will choose the driver to install* and click *Next*.
- 9 When you are prompted to select an adapter, click *Have Disk...* and enter the drive letter for the *Installation CD* or enter the directory on your hard drive where the updated driver is located. Click *Continue*.
- 10 Select *3Com Wireless LAN Adapter* and click *Next*. Follow the prompts through the remainder of the driver update.
- 11 When the installation has completed, click *Finish*.

### Windows Me and 98 SE

- 1 Insert your Wireless LAN Adapter into the PC card slot
- 2 From the Windows Start menu, select *Settings*, then select *Control Panel*.
- 3 Double-click the *System* icon, then select *Device Manager*.
- 4 In the Device Manager window, expand the Network Adapters list.
- 5 Select *3Com Wireless LAN Adapter* and click *Properties*.
- 6 Select *Driver* and click *Update Driver*.
- 7 In the Update Device Driver Wizard, follow the prompts to install the upgrade.
- 8 When prompted, click *Restart* for the changes to take effect.

## EXHIBIT 8: User Manual

# Technical Support

3Com provides easy access to technical support information through a variety of services. This appendix describes these services.

Information contained in this appendix is correct at time of publication. For the most recent information, 3Com recommends that you access the 3Com Corporation World Wide Web site.

### Online Technical Services

3Com offers worldwide product support 24 hours a day, 7 days a week, through the following online systems:

- World Wide Web site
- 3Com Knowledgebase Web Services
- 3Com FTP site

#### World Wide Web Site

To access the latest networking information on the 3Com Corporation World Wide Web site enter this URL into your Internet browser: **<http://www.3com.com/>**

This service provides access to online support information, such as technical documentation and a software library, as well as support options that range from technical education to maintenance and professional services.

#### 3Com Knowledgebase Web Services

The 3Com Knowledgebase is a database of technical information to help you install, upgrade, configure, or support 3Com products. The Knowledgebase is updated daily with technical information discovered by 3Com technical support engineers. This complimentary service, which is available 24 hours a day, 7 days a week to 3Com customers and partners, is located on the 3Com Corporation World Wide Web site at:

**<http://knowledgebase.3com.com>**

#### 3Com FTP Site

Download drivers, patches, software, and MIBs across the Internet from the 3Com public FTP site. This service is available 24 hours a day, 7 days a week.

To connect to the 3Com FTP site, enter the following information into your FTP client:

- Hostname: **ftp.3com.com**
- Username: **anonymous**
- Password: **<your Internet e-mail address>**

**NOTE:** With Web browser software such as Netscape Navigator and Internet Explorer, you do not need a user name and password .

## Support from Your Network Supplier

If you require additional assistance, contact your network supplier. Many suppliers are authorized 3Com service partners who are qualified to provide a variety of services, including network planning, installation, hardware maintenance, application training, and support services.

When you contact your network supplier for assistance, have the following information ready:

- Product model name, part number, and serial number
- A list of system hardware and software, including revision levels
- Diagnostic error messages
- Details about recent configuration changes, if applicable

If you are unable to contact your network supplier, see the following section on how to contact 3Com.

## Support from 3Com

If you are unable to obtain assistance from the 3Com online technical resources or from your network supplier, 3Com offers technical telephone support services. To find out more about your support options, call the 3Com technical telephone support phone number at the location nearest you.

When you contact 3Com for assistance, have the following information ready:

- Product model name, part number, and serial number
- A list of system hardware and software, including revision levels
- Diagnostic error messages
- Details about recent configuration changes, if applicable

Here is a list of worldwide technical telephone support numbers. These numbers are correct at the time of publication. Refer to the 3Com Web site for updated information.

# EXHIBIT 8: User Manual

## REGULATORY INFORMATION

**NOTE:** *This product contains encryption. It is unlawful to export out of the U.S. without obtaining a U.S. Export License.*

### FCC PART 15 NOTICE (APPLICABLE TO USE WITHIN THE USA)

**CAUTION:** *FCC Radio-Frequency Exposure Notice*

*This device generates and radiates radio-frequency energy. In order to comply with FCC radio-frequency radiation exposure compliance requirements, a separation distance of at least 2.5 cm (1.0 inch) must be maintained between the antenna of this device and all persons.*

*This product does not contain any user serviceable components. Any unauthorized product changes or modifications will invalidate 3Com's warranty and all applicable regulatory certifications and approvals.*

### UNINTENTIONAL RADIATOR

**WARNING:** *This equipment has been tested and found to comply with the limits for a Class B digital device as applicable, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:*

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The user may find the following booklet prepared by the Federal Communications Commission helpful: *The Interference Handbook*

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402. Stock No. 004-000-00345-4.

### MANUFACTURER'S DECLARATION OF CONFORMITY

3Com Corporation  
3930 W. Parkway Blvd.  
PO Box 704010  
West Valley City, UT 84119  
(800) 527-8677

Declares that the Product:

Date: January 31, 2002

Brand Name: 3Com Corporation

Model Number: SL-1110

Equipment Type: 802.11 Wireless PC Card

Complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### INDUSTRY CANADA NOTICE (APPLICABLE FOR USE WITHIN CANADA)

This device complies with Canadian RSS-210.

To prevent radio interference to the licensed service, this device is intended to be operated indoors and away from windows to provide maximum shielding. Equipment (or its transmit antenna) that is installed outdoors is subject to licensing.

The installer of this radio equipment must ensure that the antenna is located or pointed such that it does not emit RF field in excess of Health Canada limits for the general population; consult Safety Code 6, obtainable from Health Canada's website

## EXHIBIT 8: User Manual

[www.hc-sc.gc.ca/rpb](http://www.hc-sc.gc.ca/rpb).

### AVIS DE CONFORMITÉ À LA RÉGLEMENTATION D'INDUSTRIE CANADA

Cet appareil est conforme à la norme CNR-210 du Canada.

Pour empêcher que cet appareil cause du brouillage au service faisant l'objet d'une licence, cet appareil doit être utilisé à l'intérieur seulement et devrait être placé loin des fenêtres afin de fournir un écran de blindage maximal.

L'installateur du présent matériel radio doit s'assurer que l'antenne est située ou pointée de manière à ce que cette dernière n'émette pas de champs radioélectriques supérieurs aux limites spécifiées par Santé Canada pour le grand public; consulter le Code de sécurité 6, disponible sur le site Web de Santé Canada, à l'adresse suivante: [www.hc-sc.gc.ca/rpb](http://www.hc-sc.gc.ca/rpb).

### SAFETY NOTICE

This device has been tested and certified according to the following safety standards and is intended for use only in Information Technology Equipment which has been tested to these or other equivalent standards:

- » *UL Standard 60950 (3rd Edition)/ CSA C22.2 No. 60950*
- » *IEC 60950*
- » *EN 60950*

### EUROPEAN COMMUNITY CE NOTICE

Marking by the symbol  indicates compliance with the essential requirements of Directive 73/23/EC and the essential requirements of articles 3.1(b), 3.2 and 3.3 of Directive 1999/5/EC. Such marking is indicative that this equipment meets or exceeds the following technical standards:

- » ETS 300 328-2 — Electromagnetic compatibility and Radio spectrum Matters (ERM); Wideband Transmission systems; data transmission equipment operating in the 2,4GHz ISM band and using spread spectrum modulation techniques
- » ETS 301 489-17 — Electromagnetic compatibility and Radio spectrum Matters (ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 17: SPECIFIC CONDITIONS FOR WIDEBAND DATA AND hiperlan EQUIPMENT
- » EN 60950 — Safety of information technology equipment, including electrical business equipment

**NOTE:** Due to frequency restrictions, it is necessary to select your country before using this radio device. Refer to your 3Com Wireless LAN Manager online help for details.
