

# Request Letter for Supersede of Exhibits

Dated this 2007/03/16

FEDERAL COMMUNICATIONS COMMISSION  
Authorization and Evaluation Division  
7435 Oaklamd Mills Road  
Columbia, MD 21046  
U.S.A.

Dear Sir,

We just have O9C-WL548 granted, but our customer decide to update the users manual to strong the procedures of professional installation. And adding the carrier strength on the test report to show that the spurious emission does pass the limit. Please kindly remove the exhibits Users Manual and Test Report from the data base. Should we upload the correct exhibit now or after you remove the incorrect one ? Please advice your comment and sorry for my trouble.

If there are any questions, please contact me via the e-mail:

Alan.Lane@phoenix-testlab.de

Sincerely yours,

A handwritten signature in blue ink, appearing to read 'Alan Lane', with a long horizontal flourish extending to the right.
