Request for Tech. Info.: 12/20/03

Dear Tim:

Transmitted herewith, on behalf of **Wavecom, Inc.** is an amendment provided in response to the request for technical information dated December 20, 2003.

1. Please find attached the revised MPE exhibit.
2. The Wavecom Starter Kit is designed to allow the customer to interface to the Wavecom Q2300 and Q2400 CDMA and GSM/GPRS Module families. Control of the Module is done via AT Commands issued from an external PC running a terminal emulator, such as HyperTerminal.
3. Please find attached the user's manual page with the 20 cm spacing statement.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
