Request for Tech. Info.: 02/09/04

Dear Tim,

Transmitted herewith, on behalf of WAVECOM SA is an amendment provided in response to the request for technical information, dated February 9, 2004.

1. The EUT does not meet the definition of a module as used by the FCC for authorization purposes. Therefore, we will reissue the grant, removing all references to modular approval, instead listing the EUT as a Dual-Band CDMA Wireless Evaluation Kit. This should satisfy questions 5 and 6 of your email.
2. In addition, and in accordance with question 7, we will revise the grant note to include a warning regarding the need for reauthorization if the EUT is ever used in a portable configuration.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.

Sincerely,

Gregory Czumak
