Mississauga, Ontario L4W 5N2
Canada

Dear Sir or Madam:

Wavecom has authorized our customer, Visonic, to rely upon the Technical Acceptance Certificate for Wavecom's Q2438 module product received from Industry Canada (3651C-Q2438) for the purposes of satisfying the requirements of Bell Canada.

Wavecom's authorization is conditioned upon the representations by Visonic that the Wavecom Q2438 module product has not been modified for use in their devices.

This authorizes Visonic to make a permissive change Class II to Q2438 module, FCC ID: O9EQ2438F-M. The permissive change is for the use of the Q2438 module in Visonic's products and should in no way affect the original FCC grant.

Please contact Gulmit Sobti at (858) 362-0101 x116 should you have any questions regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Gulmit Sobti".

Gulmit Sobti
Certification and Validation Manager
Wavecom, Inc.
