

94V-0 1466

05

024 48F V2.0

The main PCB contains several key components:

- Microcontroller:** A large square chip with the text "82VW08K3" and "SKV7500-D" printed on it.
- Memory:** Two large rectangular chips, one labeled "Y9A08M1800E10 2518A" and another labeled "127L0".
- Other Chips:** A smaller chip labeled "1466V" and another labeled "1466V".
- Passive Components:** Numerous resistors and capacitors are distributed across the board.
- Connectors:** A multi-pin connector is visible on the right side of the board.

A multi-pin connector is located on the right side of the PCB, used for interfacing with other hardware components.
