

NOTICE TO OEM'S

This is a template of the instructions that are provided with the module to OEM's that clearly state their obligations to include the following RF Exposure information in their manual provided to the end-user. Also refer to Sections 6 and 7 of the user manual an addendum that has been added to the file. Sections 6 and 7 provide additional information to the user.

NOTICE: THE FOLLOWING STATEMENT MUST BE INCLUDED IN MANUAL FURNISHED TO THE END USER.

A minimum separation distance distance of 20 cm must be maintained between the antenna and persons for this device to satisfy the RF Exposure requirements of the FCC. For fixed mount operation, the antenna co-location requirements of Section 1.1307(b)(3) of the FCC rules must be satisfied. For fixed mount operation, the maximum gain of the antenna must not exceed 7 Bi. For mobile operation, the maximum gain of the antenna must not exceed 3 dBi.
WARNING! Use of this module in portable operations is not permitted.

The above statement will be information provided to each OEM.
