Hillsboro, OR 97124

May 18, 2005

Dear Application Examiner:

On behalf of PSC Scanning, Inc., Northwest EMC, Inc. is submitting this application for the certification of PSC's Falcon 5500, FCC ID: O9NFALCON5500. The Falcon 5500 is a hand-held computer used to read barcode labels and Radio Frequency Identification (ID) (RFID) tags for inventory management applications. The Falcon 5500 contains an integral RFID radio module, Model ST-200, which operates in the 902 – 928 MHz band as a frequency hopping spread spectrum transmitter.

The Falcon 5500 is battery operated, but can operate while placed in its charging dock.

The radio utilizes a single integral patch antenna. This configuration satisfies the requirements of 47 CFR 15.203.

The receiver portion of this radio transceiver has been verified to FCC 15B.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.247 as a frequency hopping spread spectrum transmitter.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
