

Thank you for your selection of the 905U-K module for your telemetry needs. We trust it will give you many years of valuable service.

ATTENTION!

Incorrect termination of supply wires may cause internal damage and will void warranty. To ensure your 905U-K enjoys a long life, **double check ALL your connections with the user's manual** before turning the power on.

CAUTION!

For continued against risk of fire, replace the module fuse F1 only with the same type and rating

This device should not be operated within 8 inches (20cm) of people in accordance with CFR 47 Section 1.1307

DO NOT:

- operate the transmitter when someone is within 20 cm of the antenna
- operate the transmitter unless all RF connectors are secure and any open connectors are properly terminated.
- operate the equipment near electrical blasting caps or in an explosive atmosphere

All equipment must be properly grounded for safe operations. All equipment should be serviced only by a qualified technician.
