Dear S.S. Liou,

The application review is complete. There are only a few minor issues. If you have questions, please contact me.

AN07T6719 ALTRUSTY OAVTXSL003

1. In the user manual, please remove the RF exposure statement after "Important Note:" and replace with the following statements as required by 15.19(a)(3) and 15.21.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

2. Please confirm that the ANSI C63.4:2003 version was used for testing. In the test report, it says only ANSI C63.4.

3. The HP 8564E Spectrum Analyzer is listed as past it's calibration date. Please confirm that the HP equipment was not used for the testing.

Thank you and best regards,

Tim Dwyer
CCS Technical Reviewer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
