Request for Class II Permissive Change

FCC ID: OAYARS5B

Applicant: ADC Automotive Distance Control Systems GmbH

To whom it may concern:

This is to request a Class II permissive change for FCC ID OAYARS5B due to a software change that results in a change of spectrum compared to the filed one. Optional configuration shift of mid frequency towards lower band edge.

After change, this product has been tested to meet the requirements of the applicable rules of FCC as documented in the test reports provided.

Meanwhile, we submit the following documents related to this change:

- Test Report
- Change Description of the modification (confidential)

Frequency Range, Emission Designator and MPE calculations are not effected by this change.

Thank you for your attention to this matter.

Sincerely,

Dr. Hanns A. Stoffregen
Head of Technical Management Radar

Dr. Sebastian Hage-Packhäuser
Head of Homologation Radar
