

## **TEST SETUP PHOTOGRAPHS**

This document contains 4 photographs

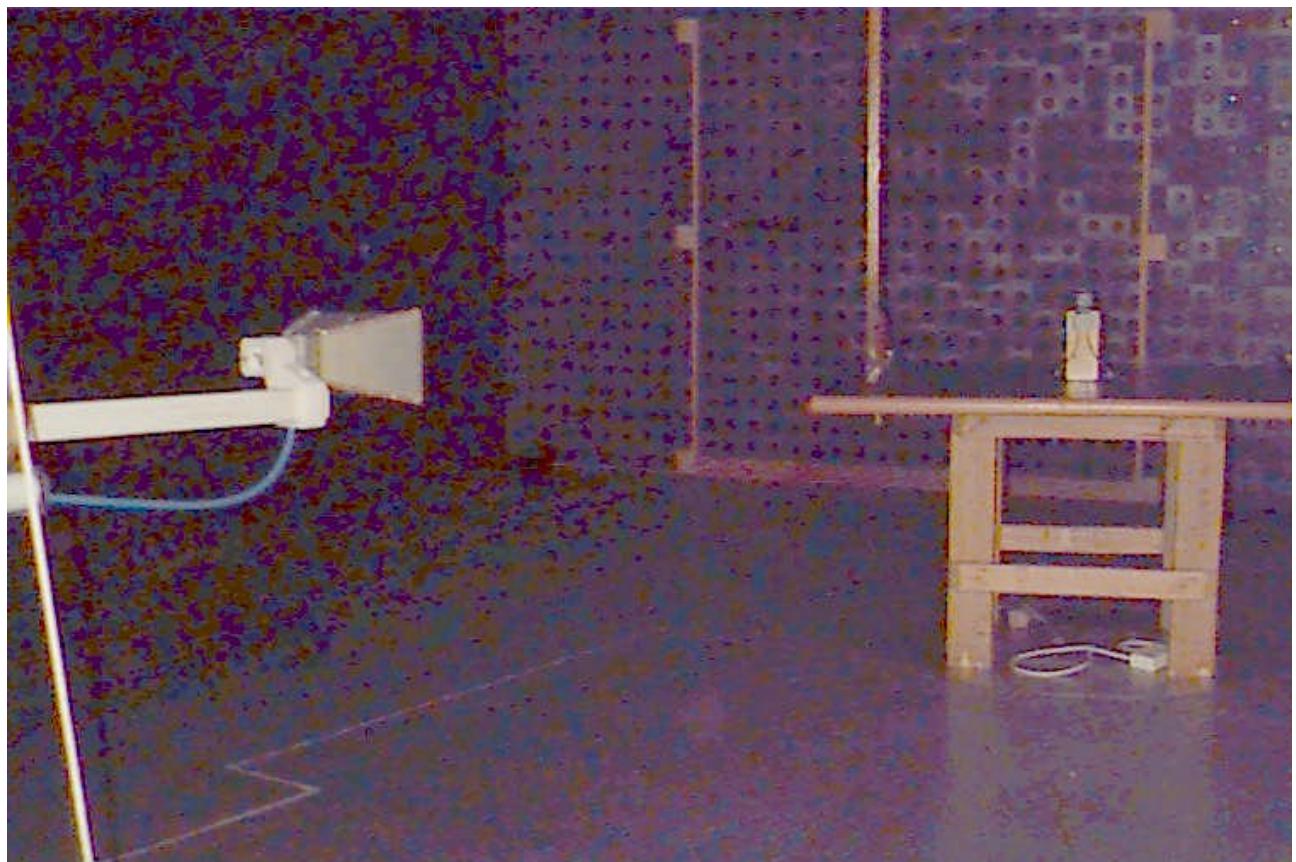

**Photograph No.1**  
**Radiated emission measurements test setup with loop antenna,**  
**9 kHz – 30 MHz frequency range, anechoic chamber method**

**Photograph No.2**  
**Radiated emission measurements test setup with biconilog antenna,**  
**30 MHz – 2000 MHz frequency range, anechoic chamber method**

**Photograph No.3**  
**Radiated emission measurements test setup with double ridge guide antenna,  
2 GHz – 9.5 GHz frequency range, anechoic chamber method**

**Photograph No.4**  
**Radiated emission measurements test setup, anechoic chamber method**
