RE: Hi-G-Tek Ltd.

FCC ID: OB6-IGSA125

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please provide a block diagram for the 125 kHz TX portion of the EUT.
- 2) Please explain the addition of 20 dB for correction factor as given on page 11 of 23. Note this didn't appear in application FCC ID: OB6-IGRS40916.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
