Dear Mr. Chang,

On behalf of our client, Yamaha Corporation of America, we request that the FCC treat application OBBREMOTERF (confirmation EA93763) as Confidential Information with regards to the Schematic and Block Diagram exhibits we submitted for the design. Our client is concerned about providing information on their design that would give their competition an advantage in the market they wish to sell their product.

If you have any questions concerning our request, please do not hesitate to contact me.

Sincerely,

Mike Mussler
