

Part Number: NVC-MDCS45
FCC ID: OC3BM1845
Request for Modular Approval

June 13, 2012

In accordance with FCC Part 15, we, NovaComm Technologies Inc, hereby request a modular level approval as outlined in FCC document DA 00 – 1407, for the device listed above.

In support of Modular Transmitter Approval, the following is stated:

- 1) The module does have buffered modulation / data inputs.
- 2) The module does regulate its own power supply.
- 3) The module does have a permanently attached antenna.
- 4) The module can be tested as a stand-alone device.
- 5) The module is labeled with the proper FCC ID, and labeling instructions are provided to OEM end users for external product labels.
- 6) The module does have instruction for proper use.
- 7) The module does meet the FCC RF regulations.
