Dear Errol / Kwok:

Submitted herewith, on behalf of Hanwha Corporation, is an amendment in response to your e-mail dated April 4, 2000 requesting additional information for the subject application.

1. The correct output power used during the SAR tests is 22.5dBm (178mW) conducted power. The SAR data sheets were inadvertently submitted listing 190mW output power. Attached are the revised SAR data sheets. Also attached is the revised head SAR test summary page from the SAR test report confirming the output power tested is conducted.
2. The applicant accepts the proposed grant condition stated in your e-mail.

We trust this information is sufficient to issue the grant asap. If you have any further questions regarding this matter, please do not hesitate to contact us.
