April 12, 1999

Confirmation Number: EA93833
FCC ID: OCQLA-WIWPROXKEYM

To Whom It May Concern:

My name is Michael E. Hill. I am the Manager-Test Facility for EMC Automation. We recently tested the Iolan Systems Inc. (ISI) LA-WIW-Proxkey-M badge reader to CFR47 Part 15. The device is an intentional radiator (13.56MHz), digital device (11MHz). As such, it requires certification with the FCC.

It is our opinion this device conforms to the requirements of Part 15. The sample tested met these standards **without** modification.

On behalf of ISI and their representative Gerard Verkaart, EMCA is handling the Form 731 filing for this product. This will be an electronic submittal. Form 731 has been filed electronically and Form 159 and the necessary payment have been mailed to the FCC. ISI requests that the schematic diagram of the device be kept confidential. Any questions regarding this submittal (i.e. missing information), should be forwarded to me. Please feel free to use my email address: mikehill@emca.com.

As this is our first electronic filing, EMCA would appreciate any comments you may have that will expedite this process in the future.

Sincerely,

Manager Test Facility
