RE: CONFIDENTIALITY REQUEST FOR **Building Automation Systems /MODEL
FW-08 / FCC ID: OEJFW08L**

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the Block diagram, Operational description and Schematics required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment description and related information about the product which Johnson Controls Inc considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, Johnson Controls Inc considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy E. Field". The signature is written in a cursive style with a large initial 'T' and a distinct loop at the end.

Name: Timothy E. Field
Title: Engineering Manager
