Device Description

- ① Power on/off
- ② SD Card Reader
- ③ ④ USB HOST
- ⑤ Optical Audio
- ⑥ Right Audio Output
- ⑦ Left Audio Output
- ⑧ Video Output
- ⑨ Ethernet Lan RJ45
- ⑩ HDMI Output
- ⑪ DC jack

The picture and built-in software are just for your reference, please subject to the real machine in the market.

Introduction of operating interface

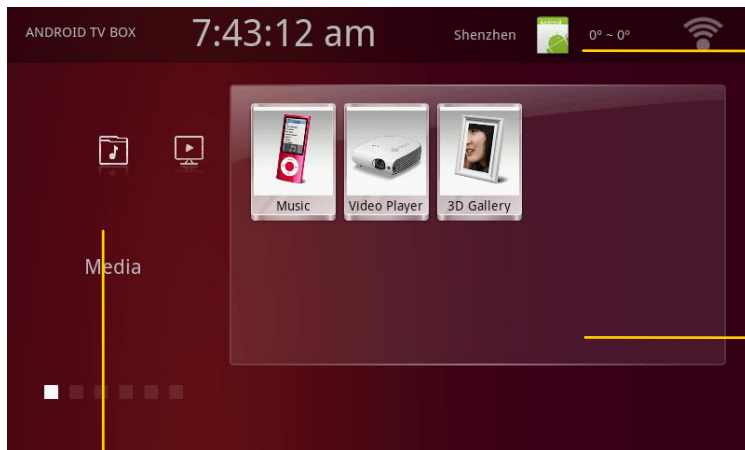

1、 Support brand new independent SENSE 3.0 handling interface, the infrared 2.4G wireless controller

SENSE3.0 main interface

In this page, you can select the following columns by remote control/2.4Gmouse/Touch keyboard. The column included:

- My multimedia
- PP stream
- Internet Browsing
- Entertainment
- Internet application
- System set up

Status bar included:

- Present time
- User Address
- Present weather
- States of internet

Hereby to show the contents of the column

Move with mouse to shift the column

country of origin: China

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
