June 15, 2001

Federal Communications Commission  
Attn.: Product Type Approval Department  
7435 Oakland Mills Rd.  
Columbia MD 21046

To Whom It May Concern:

The AT&T Wireless Service Base Station, B1.5 PCS, has been tested in accordance with the requirements contained in the appropriate Commission regulations. To the best of our knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards and demonstrate that the equipment complies with the appropriate standards. Each unit manufactured, imported or marketed as defined in the Commission's regulations, will conform to the sample(s) tested within the variation that can be expected due to the quantity produced and testing on a statistical basis. The test results and conclusions accompanied with this Type Acceptance Application and test report are certified to be true and correct, having been taken personally or under the supervision of the undersigned individuals.
