3.1 FWAN WCS Base Station—System-Dependent Products

This unit, the FWAN WCS Base Station, comprises the second half of the FWAN WCS System. Currently, the R3 WCS has undergone FCC evaluation for certified FCC Type Approval and, per the Grant of Equipment Authorization, was assigned the following FCC Identifier: OF2WCSR30. The Remote Unit is located at remote residences and in concert with the FWAN WCS Base Station completes the FWAN WCS System.

This application for FWAN WCS Base Station Type Approval is for a Class A commercial product that will function in concert with the aforementioned Remote Unit to complete the FWAN WCS System, providing wireless loop service. This system operates in the WCS Spectrum Blocks A and B and can communicate with the following products:

- Remote Unit 3 WCS, FCC I.D. OF2WCSR30
