RE: Application for Limited Single-Modular Approval

We, Grundfos Holding A/S, wish to have our Radio module, named "Grundfos Radiomodule 2G4", approved for a Limited Single-Modular Approval.

This module has FCC ID: OG3-RADIOM01-2G4

We deviate from the 8 requirements in Section 15.212 for a Modular Approval by having

- i) No RF shielding is provided by the module
- iv) The PCB antenna pattern is solder-connected to the module

We control this deviation by making the end product shield the module with respect to RF radiation. We will only use the module in our own, Grundfos branded products, and hence control the integration of the module

Yours sincerely,  
GRUNDFOS Holding A/S

  
Nikolaj Haahr Korshøj  
Approval Engineer
