

FCC ID: OGM1622-27

Circuit Description

The 27.145MHz crystal oscillator drives the base of Q3 the final/buffer amplifier. The modulation provided by IC (SCTX2(C795)). The output of Q3 has the matching network consisting of L3 and C8 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

The antenna consists of a 22cm long telescoping chrome over brass tubing . There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 9 Volt ("6F22" size battery x 1) primary battery
