Re: Production Modification in Manufacturing

Dear Examiner:

During the manufacturing process, AWID will attach a ferrite at the RS232 cable near the module (EUT) connector with three turns to allow the emissions to comply with limits. The material is a round cable core, brand name FAIR-RITE and Part number 2643801002.

If I may be of any assistance to the Bureau, please contact me.

Sincerely,

George Lu
VP of Operations and Services
