Non-Conformities FCC ID: OH27305 (CKC CS Ref # E08-000005-FCC-02)

The items listed below represent requests for information following review of this application for certification under United States (FCC) regulations. Further question may arise pending review of responses to these items.

OK	#	Non-Conformity or Comment	Submitted Response	Respondent / Date of Response
	1	Response to Item 3 in NC-1 was insufficient. 15.35 states averaging over one complete pulse train. The method described in the response indicated averaging multiple random samples of the pulses which completely ignores the actual pulse train. Please indicate how long is the pulse train and compute the correction factor using the entire pulse train. If the pulse train is longer than 100ms, an average over the worst case 100ms can be made. A valid formal to use is the 20*LOG(on time / 100ms).	A new addendum to the test report has been uploaded to answer the question.
