Subject: Revisions for FCC ID: **OHT5908933**

Dear Ladies and/or Gentlemen:

I reference to FCC ID: **OHT5908933**, the following circuit performance modifications have been made:

- a. Periferal components of IC U12 have been revised to increase excitation and receiver sensitivity levels of the RFID transceiver function.
- b. Voltage regulator IC U1 was replaced with one suitable for the revised RFID transceiver circuitry.

Sincerely,

Brian Reetz
Vice President of Security Products
Strattec Security Corp.
