Re: Certification for Strattec Security Corporation FOBKey
FCC ID: OHT692714AA

Please find enclosed application materials for certification of Strattec Security Corporation FOBKey. We tested it and found it to comply with CFR Title 47, Part 15.231.

Current Variants:

There are four minor PCB variants of the EUT that are electrically identical except for digital SMT switch population. The most populated PCB variant employs 6 switches, followed by a 5 switch variant, a 4 switch variant, and a 3 switch variant. Employing the 4 PCB variants are a total of seventeen (17) product part numbers with varying logos and rubber button insert configurations. Details of the number of buttons and configurations for each part number are included in the labeling exhibit.

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 252-9785, or e-mail info@wrtest.com.

Sincerely,

Joseph D. Brunett
