SUBJECT: Equipment Tuning Instructions

To Whom It May Concern:

Concurrent with our filing of FCC form 731 Applications for FCCID: OJB-APC4-365 (Access Point) and FCCID: OJB-SSC7-365 (Customer Premise Equipment), we herein clarify equipment tuning instructions.

At installation, equipment is configured for operation. There is no equipment tuning per say. Frequency and power is set via the use of embedded web pages and/or element manager software applications. Instruction and screen shots of the pertinent settings are included toward the end of the installation guides. These install guides have also been supplied as part of the form731 submittal.

Please contact the undersigned if you have any questions.

Sincerely,

A handwritten signature in black ink, reading "Christopher Moritz". The signature is written in a cursive, flowing style.
