RE: Request for Confidential Treatment from public disclosure

FCC ID: OJB-SSD6D7 Product Name: AB-MAX Customer Premise Equipment

Dear Sirs/Madam,

Axxcelera Broadband Wireless, Inc. would like to request that Schematics, Bills of Materials, Circuit/Block Diagrams, Internal Photographs, and Operational Descriptions submitted with the applications for certification be withheld from public disclosure per Section 0.459 of the FCC Rules. This confidentiality request is made under the provisions of Section 0.457(d) of the FCC Rules and Section 552(b)(4) of the Freedom of Information Act. The various items contain proprietary, confidential and trade secret materials, which would not customarily be made available for public inspection. Further, as the products are professionally installed, with no user serviceable parts, the end user or general public would not have access to internal construction methods and details.

If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Christopher Moritz". The signature is fluid and cursive, with a slightly larger name at the top and "Moritz" written below it.

Christopher Moritz
Director System Engineering
