To: Federal Communications Commission
Authorization and Evaluation Division

Subject: Permissive Change Class II for Corning Optical Communication
Wireless's, RAU-5x Remote Antenna Unit under FCC ID: OJF1RAU5X

To whom it may concern,

The E.U.T. was originally FCC certified on 02/18/2016 under FCC ID: OJF1RAU5X.

The E.U.T. transmitter is certified to operate as a 5 band remote unit as part of a booster system that can operate with FCC ID: OJF1RXU.

No changes have been made to the E.U.T.

The C2PC change is to allow the E.U.T. to operate as a 5 band remote unit as part of a booster system that can operate with the new RXU2325 certified under FCC ID: OJF1RXUN.

The E.U.T. has been fully tested with the RXU2325 and results presented in the four reports (for bands AWS-3, CELL/ESMR, PCS & LTE) submitted with this application.

We request a Permissive Change Class II based on the above.

Thank you for your assistance.
