

TCB RF Exposure Review Procedure Statement
FCC ID:OJFLITENNA9B430P4

Transmitter Category	Device Type	Product Category	Approval and Review Procedures Used	Specific Procedures:
I	Indoor Repeater	Fixed Transmitters identified in Table 1 of §1.1307	Section B	SP(1), SP(3), SP(7), SP(8) and SP(9)
<p>Grant Condition : The antenna(s) used for this transmitter are to be fixed-mounted on indoor permanent structures providing a separation distance of at least 20 cm from all persons during normal operation. The maximum radiated output power at each antenna must satisfy the MPE Categorical Exclusion Requirements of §2.1091. RF exposure compliance may need to be addressed at the time of licensing, as required by the responsible FCC Bureau(s), including antenna co-location requirements of §1.1307(b)(3).</p>				
SP1	<p>EUT is a repeater. No duty cycle needs to be considered. Applicable FCC rule parts: Part 22, and 24. Output power ratings have been verified by comparing Page 12 of test report and Page 6 of Repeater data sheet. (Dual Band)</p>			
SP3	<p>Page 11 and 12 of Installation guide. RF exposure information to user specified 20 cm separation distance and specified the antenna gain can not over 10dBi</p>			
SP7	<p>Installation procedure has been fully described in Installation instruction provided by the applicant. The RF exposure warning information is placed at the front chapter of document</p>			
SP8	<p>Page 11 and 12 of Installation Guide.</p>			
SP9	<p>Grant conditions have been reviewed by TCB and has made the determination that device complied with RF Exposure review procedures.</p>
