Re: Request to withhold indefinitely portions of certification application from public view per FCC Rule Part: 0.459

Applicant: MobileAccess Networks

FCC ID:OJFMA850

Dear Mike,

On behalf of my client MobileAccess Networks, I request the following documents be withheld from public view for an indefinite period of time:

Schematics
Block diagram
Theory of operation

MobileAccess Networks has invested considerable resources in the design and execution of this product and as such, other manufacturers would be afforded an unfair competitive advantage were the referenced documents to be made easily available.

The referenced device incorporates devices manufactured by Cisco Systems and Linksys. The schematics and block diagrams for these devices will be provided to the TCB via “third party confidentiality request” submissions.

If you have questions or need further information, please contact the undersigned.

Sincerely,

THOMAS N COKENIAS
Agent for MobileAccess Networks
