Module Series CMD-KEYX-xxx Architecture Saw Stabilized AM Transmitter

Modulation Method AM Keyed Carrier Duty Cycle Determined by User Data

Frequency 315 418 433.92 Overall Accuracy ± 50 KHz

Occupied Bandwidth <50 KHz

This product utilizes a modular hybrid RF stage manufactured by Linx Technologies Inc. The module contains all RF components excepting antennas. While each module is inherently designed to meet or exceed all FCC requirements, external factors such as antenna selection, transmission content, and intended application may affect its use. A block diagram of the modules internal architecture and signal path is shown above. Additional information regarding the use, construction or testing of Linx modules may be obtained by calling (541) 471-6256, from 8-4 PST or addressing a written e-mail request to info@linxtechnologies.com.
