Dear Stan:

Our client, Spectra Engineering PTY LTD has requested that the schematics be held confidential. These exhibits were marked confidential at time of upload. They feel that this information is sensitive for their position in the market place.

As some of the PCB layout is likewise sensitive on the power amplifier assembly, I had also conferred with them on the photos. The managing director has indicated that if the schematics are held confidential, we can forgo the photos. Please withdraw our request for confidentiality on the photos.

Sincerely,

Walter "Bud" Simciak
