Re: FCC ID OKRMX800R2R3  
Applicant: Spectra Engineering PTY LTD  
Correspondence Reference Number: 22901  
731 Confirmation Number: EA192481

Dear Stan:

I have the following information from my client on the specific rule numbers for this submittal.

"The FCC Rules Part under which the similar 746-797 MHz portable equipment grant was issued (FCC ID: ABZ99FT5000) was 90.210(d). This specifically relates to the 11K0F3E emissions and their compliance to emissions mask D for 12.5 kHz channel spacing equipment. Technical standards governing this frequency range are in 47 CFR Part 27.50(b), and emissions limitations for emissions within the 1559-1610 MHz band are defined in Part 27.53(d)(4)(e).

However it was my understanding that these Rules parts are for technical standards and would not be the **Rules Part under which certification is granted (which would be Part 90.210(d)).**"

I hope that this is a correct interpretation.

Sincerely,

Walter "Bud" Simciak  
Chief Engineer,
