In re : SK TELETECH CO., LTD
FCC ID : OL6SK-3000
Single-Mode CDMA Cellular Phone
FCC Part 22 Certification
Request for Confidentiality

Gentlemen,

In accordance with 0.459 of CFR47, SK Teletech Co., Ltd. Hereby request confidentiality of the Block Diagrams, Circuit Diagrams & Description, Part List, Tune-up Procedure, and Operational Description attachments for the attached application.

These documents contains detailed system and equipment description and related information about the product which SK Teletech Co., Ltd. Considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, SK Teletech Co., Ltd. Considers that this information would be of benefit to its competitors, and that the disclosure of the in these documents would give competitors an unfair advantage in the market.

Sincerely:

Sang-Seok Oh

**AFFIDAVIT FOR ESN PROTECTION
OF CELLULAR MOBILE TELEPHONES**

We hereby certify that the handheld portable cellular phone(FCC ID :**OL6SK-3000**) is so designed that it complies with all the requirements for ESN protection specified in Section 22.919 of the FCC Rules.

- a) The transmitter in service has a unique ESN.
- b) The ESN host component is permanently attached to a main circuit board of the mobile transmitter and the integrity of the unit operating software can not be altered. The ESN is plated from fraudulent contact and tampering. The ESN is encoded using multiplication by a polynomial and ESN data programmed in the memory with other information.
- c) The ESN is factory-set and can not be altered, transferred, removed or otherwise able to be manipulated. Cellular mobile equipment is specifically designed such that any attempt to remove, tamper with, or change the ESN chip, its logic system, or firmware original programmed by the manufacturer will render the transmitter inoperative.

Sincerely,

Sang-Seok Oh
