ONCWPR	<p>1. The FCC ID of the Transmitter that the repeater is intended to operate is FCC ID: ONCWPF5 2. The transmitter used for the interoperability test is FCC ID: ONCWPF5 3. The test report has been revised to describe the method employed for determining the repeater continues to comply with the applicable requirements with maximum input levels. 4. The first paragraph of the last page of the Theory of Operation addresses if the repeater only transmits when it demodulates and decodes (validates) an incoming signal from the specific transmitter with which it is authorized to operate.</p>
