

FCC ID: ONFC1406A

Data: Nov 11, 2014

Gentlemen:

There's a wireless radio modular that would like to have your authorization as a modular approval.

The specific product as below, wireless radio modular with its designed features and specified description, meets special requirements for full modular approval on FCC Public Notice DA 00-1407 Released: June 26, 2000 by cross-reference list below.

Company	: TELE RADIO AB
Model Name	: wireless radio modular
Model Number	: D00007-03, D7-3,CL-TR338-1
FCC ID	: ONFC1406A

Requirement of Public Notice DA00-1407/ Part 15.212	Reference to D00007-03
1. The modular transceiver must have its own RF shielding.	There's no RF shielding.
2. The modular transceiver must have buffered modulation/data inputs.	The modular has buffered data inputs, it is integrated in chip TRF7970ARHB. Please see schematic.pdf
3. The modular transceiver must have its own power supply regulation.	The modular has a DC/DC converter (N2: XR2203A), this DC/DC converter power from Li-ion battery and output voltage is 5V.
4. The modular transceiver must comply with the antenna requirements of Section 15.203 and 15.204(c).	The antenna type is PCB antenna.
5. The modular transceiver must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.	This modular is installed on T14-4 and do test.
6. The modular transceiver must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed	The label position of D00007-03 is clearly indicated. Please see the label.pdf
7. The modular transceiver must comply with any specific rule or operating requirements applicable to the transceiver and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment	The D00007-03 is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual. Please see Installation guide.pdf
8. The modular transceiver must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UHF and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transceivers operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The D00007-03 complies with applicable RF exposure requirements. Please see RF safety evaluation. pdf

Thank you.

Sincerely,

Jesper Ribbe / R&D Manager
