Re: FCC ID: ONTJETIDS24US

To Whom It May Concern:

The following application is submitted on behalf of our client, Esprit Model Inc., for evaluation of their model JETIDS24US for certification under FCC Part 15.247.

The Esprit Model, Inc. FCC ID: ONTJETIDS24US is remote control toy transceiver operating in the ISM bands of 900 MHz and 2.4 GHz. The 2.4 GHz transmission is produced by two transceiver boards which are equipped with two antenna ports. The 2.4 GHz transceivers and antennas do not operate simultaneously but alternate depending on the receive signal strength. The 900 MHz transceiver board on the other hand provides one antenna port. The 900 MHz transceiver is used as a back-up to the 2.4 GHz transceivers

The FCC ID: JETIDS24US was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'.
