Re: FCC ID: ONTJETIREX12US

To Whom It May Concern:

The following application is submitted on behalf of our client, Esprit Model, for evaluation of their models JETIREX12US, JETIREX10US and JETIREX7US for certification under FCC Part 15.247.

The FCC ID: ONTJETIREX12US is a 2.4 GHz transceiver for remote control toys. The device operates in the frequency range of 2405 MHz to 2480 MHz using 16 non-overlapping hopping channels. The device is marketed as three model variants which differ only in terms of the number of servo I/O ports supported. The details specific to each model are provided with this submission.

The FCC ID: ONTJETIREX12US was evaluated in full to the aforementioned tests requirements using the JETIREX12US model, which was deemed representative of the worst case configuration, and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R'.
