i-Q350LM optional configuration

Hans-Günter Meuthen 07.12.09

The i-Q350LM are offered with following options

Type	description	enclosure	RF-modulation	Circuit board
i-Q350L W	Wristband tag with ASK-WAP	Wristband	ASK	i-Q350LW
i-Q350L M	Mirco tag with ASK-WAP	Microtag	ASK	i-Q350LW
i-Q350L W	Wristband tag with FSK-WAP	Wristband	FSK	i-Q350LW
i-Q350L M	Mirco tag with FSK-WAP	Microtag	FSK	i-Q350LW

WAP = wireless application protocol

All four tags have common transponder board, battery and antenna.

Due to different RF-modulation 2 i-Q350L M tags are tested, one with ASK and one with FSK modulation.

These four tags have the same FCC ID OO4-ILR-IQ350LM and for Canada IC:3538A-IQ350LM.
